CAREER OBJECTIVE

I am a motivated and adaptable third-year B.Tech Information Technology student with hands-on experience in Python, full-stack web development, and AI-based systems. Having completed three internships across software development, cybersecurity, and digital marketing, I am eager to apply my technical and problem-solving skills in a dynamic organization, and continually learn from industry professionals.

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, HTML, CSS

Frameworks & Tools: FastAPI, REST API, RESTful API, CORS Middleware, Git, GitHub, VS Code, Eclipse, Canva

Databases: MySQL **AI / ML:** CNN, LSTM, Transformers, MFCC, TensorFlow (Basics)

Core CS Concepts: Object-Oriented Programming (OOP), Data Structures and Algorithms (DSA) **Other:** Cybersecurity

Fundamentals, Social Media Marketing (SMM), Content Creation

PROJECTS

RecipeBook – Full Stack Web Application

Personal Project

- Built a full-stack recipe web app with a FastAPI backend exposing 8+ RESTful API endpoints supporting pagination, filtering, and sorting.
- Developed a responsive JavaScript frontend with live search, cuisine filters, star-rating filter, and sort controls connect to live API
- Configured CORS middleware for seamless browser-to-backend communication; added real-time API status indicator. Packaged the full project (frontend + backend) as a deployable ZIP with documentation and requirements file.

Multimodal Real-Time Deepfake Detection for Voice and Video Calls

Academic Project

- Designed a lightweight AI system integrating CNN and Transformer models for facial deepfake detection with 90%+ classification accuracy.
- Implemented MFCC feature extraction and LSTM-based model for real-time audio deepfake detection during live calls. Built and tested a cross-platform prototype running on mobile, tablet, and laptop devices; system alerts users of deepfakes in real time.

INTERNSHIP EXPERIENCE

Python Trainee Intern

DreamCodeAcademy

- Completed 15+ days of intensive Python training covering syntax, data types, control flow, and Object-Oriented Programming (OOP).
- Built 3+ hands-on mini-projects improving logical thinking and problem-solving skills using Python.

Cyber Security Intern

DLK Career Development

- Studied cybersecurity fundamentals including common cyber threats, network/system security, and digital data protection strategies

Digital Marketing Intern

Blue Stone Academy (P) Ltd

- Learned social media marketing and content creation strategies; assisted in 2+ marketing campaigns improving analytical thinking.

EDUCATION

Panimalar Engineering College

Bachelor of Technology – Information Technology

09/2023 – Present

Tamil Nadu, India

SethuBhaskaraMatricHigherSecondary School

Higher Secondary Certificate (HSC)

01/2022 – 01/2023

Tamil Nadu, India
